THE GREAT RACE.-The struggle now going on between the Collins and Cuhard line of steamships on the Atlantic may well be a subject of general interterest, for it involves no less a prize than the supremacy of the seas. Heretofore this result was the subject of bloody controversy, and the claims of rival nations were determined on many a well-fought azure field. The strife was pursued even amid the war of elements, until me or other of the contending parties struck their colors in acknowledgment of the superior prowess of their adversary, or lay on the waters a shuttered wreck. But the introduction of steam has exploded this kind of rivalry, and established the possibility of settling international disputes without the smoll of gun-powder. The English are beginning to find out this truth. And the following paragraph from a Dublin paper shows how deeply the people of that

"We do not besitate to say that the beating of the Cunard line of steamships by the Collins is the most significant international event of the day. Nor is it to be conceated that to Irishmen its significance is greater than to any other people in the world. We have hitherto been shut un in an occan prison, no people but one having power to walk the waters that immured us. Henceforth it may be hoped that we will partake more largely in all the movements of our race. In peace and in war the world will have more necess to us, and we to the world, since the keys of the im prisoning seas are about to be transferred to other and more friendly hands,"

country are interested in its accomplish-

ment.

A FAITHFUL WIFE.-There is nothing like a faithful wife; under God our weal or wee for this life depends on her If she is desponding, your own sanguine spirit catches the infection; but if she is still full of hope and energy, her smiles will cheer you in this world; prosperity and happiness depend chiefly on our wives. Let a man marry one, therefore, "equal to either fortune," who can a dorn his riches or brighten his poverty and who under all circumstances will be truly his helpmate.

An old Nurse's cure for the Summer Complaint .-- Take three nutmegs, grat ed; to which add the yolks of three fresh eggs, and mix them well with three tablespeonfuls of French brandy, or heat Port wine. Dose—a table spoonful three times a day. It is one of the simples and most effective remedies ever used for cholera infantum. For thirty years an old nurse used this, and during that time lost not a dozen cases. With ordinary care, good nursing, proper attention to clothing, &c., no child need die of summer complaint, if you will but use the above assistant.

Exension Ticket to the World's Ex hibition.-We are happy to learn that the enterprising house of G. W. Me. Henry & Co., of this city, intend to issue! cabin passage certificates for the Industrial Exhibition to take place in London next year. The tickets for the excursion to Liverpool and back are to be furnished at the low price of \$100, mcluding every thing but wines and liquors. The trips will commence with the packet ship Mary Pleasunt, to sail on the lath March next .- Philadelphia American.

Cousin.—There's nothing like a cousing your sister, and courting a lady in the face of a strange family, requires the nerve of a martyr; but your dear family cousin, with her provoking maidealy reserve, and her bewitching freedoms, and the remping feelies, and the stolen tenderness over the skein of silk that will get tangied-and then the long ride, which nobody talks about; and the long tetes a-tetes, which are nobody's business; and the long letters, of which nobody pays the postage-no, there is nothing like a cousin-a young, gay, beautiful witch of a cousin.

THE MYSTERY EXPLAINED.- The cause of the many sudden deaths at Kalamazoo, a week or two ago, which was imputed to cholera, is thus explained by the Chicago Journal. A bottle of corrosive sublimate was mistaken for vinegar and mixed with the mustard. The number of deaths were thirteen, eight at Kalamazon, two at Marshall, two at Grand River and one at Mottville.

· Later from California.

NEW ORLEANS, Nov. 2. The steamship Alabama, Foster, from Chagres, arrived at this port yesterday, with two days later news from California, bringing dates to the 17th just.

The health of the Isthmus was good. All excitement relative to the attempted revolution in New Granada, had pretty much died away. Rain continued to full, though it had but little effected the roads, which were in such order as to enable all to pass over with but little difficulty.:

The accounts from California are not of a very encouraging nature. San Francisco has been visited by another destructive fire which consumed over 100 buildings, causing much distress among the occupants thereof. Preparations were to be made at once for removing the rubbish, and erecting more substautial buildings.

The financial crisis still excited much talk, but it was thought the worst was a-

A LEARNED BLUSDER, When Dr. Adam Littleton was compiling his Latin dictionary, assisted by an amangensis. he dictated the word concurre. The scribe, supposing that the various senses of the word in English would begin, ns usual with the most literal one, said "To concur, I suppose, sir" The Doctor immediately exclaimed previshly. "Concur! con-dog " and accordingly the amanueusis, supposing the latter word to be dictated, immediately wrote condog as the translation of concurre,-It was even printed thus in the first edition of 1678, though this ludicrous blunder was corrected, in the subsequent editions.
